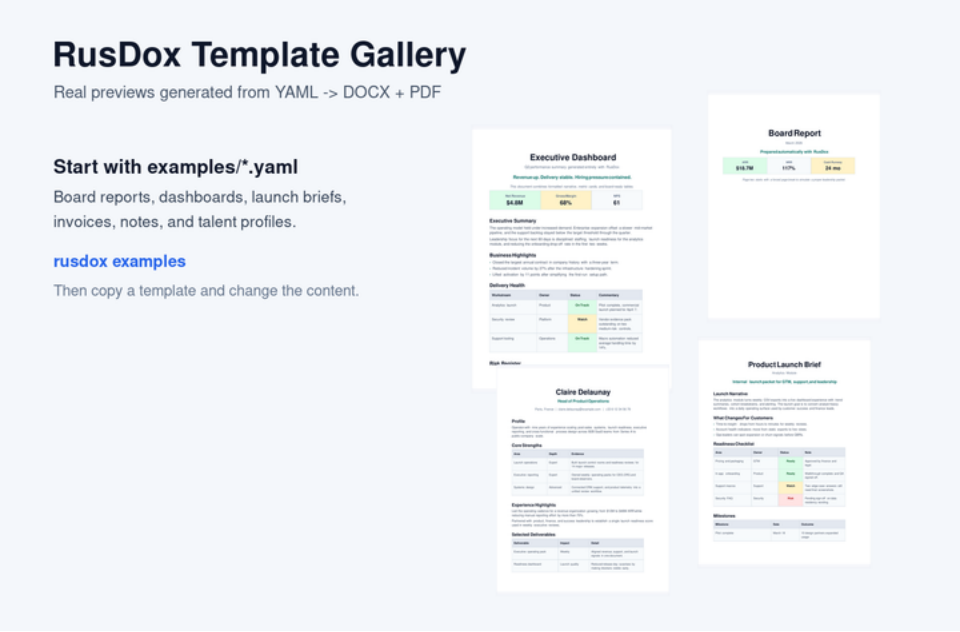
Visual Assets Showcase

Images, logos, signatures, and SVG charts rendered by RusDox

Context

This example exercises the new visual block support with both raster and SVG assets.



Benchmark Chart

SVG chart files now flow through the same document pipeline and render into both DOCX and PDF outputs.

RusDox Stress Benchmark

Fastest total 679.86 ms

DEV PROFILE

YAML Stress Flow

YAML parse	176.81 ms
Doc compose	34.23 ms
DOCX write	285.66 ms
PDF render	289.04 ms
Output total	**785.78 ms**

RELEASE PROFILE

YAML Stress Flow

YAML parse	132.78 ms
Doc compose	27.78 ms
DOCX write	234.32 ms
PDF render	284.91 ms
Output total	**679.86 ms**

Sign-Off

Signatures and approval marks can be embedded directly as SVG assets.
